STATEMENT OF HAZARDOUS NATURE

POLYDEX BACTERICIDAL JOINTING LUBRICANT Not Hazardous according to the criteria of Worksafe Australia

IDENTIFICATION

Product Name Other Names	POLYDEX BACTERICIDAL JOINTING LUBRICANT
	40405
Manufacturers Product Code	49405
UN No.	n/a
Dangerous Goods Class and Sub Risk	n/a
Packaging Group	n/a
Hazchem Code	n/a
Poisons Schedule	n/a
Use	PVC pipe rubber ring jointing lubricant

PHYSICAL DESCRIPTION / PROPERTIES

Appearance Boiling Point Vapour Pressure Specific Gravity Flammability Limits Flash Point Solubility in water Off white Gel 100°C 17.5mm Hg @ 20°C 1.0g/ml @ 20°C Not Flammable None Soluble in all proportions

OTHER PROPERTIES

Corrosiveness pH (1% Solution) Stability Not Corrosive to most common metals 10.4 Stable

PROPORTION

INGREDIENTS

CHEMICAL NAME CAS No.

Health Effects ACUTE Swallowed	Capable of causing irritation and nausea if swallowed in large amounts
Eye	Mild irritant and cause redness, as for soap
Skin	Prolonged contact can tend to defat and dry the skin as for soap.
Inhaled	Not an inhalation risk.
CHRONIC	None of the ingredients of this product are reported to produce effects. No effects have been reported by chemical workers handling this product.
First Aid Swallowed	Give plenty of water to drink and seek medical attention promptly. DO NOT induce vomiting.
Eye	Immediately flush the contaminated eye/s with lukewarm gently flowing water for 15 minutes holding eyelids open. If irritation persists, continue flushing and seek medical attention.
Skin	Wash thoroughly with water.
Inhaled	Not needed
First Aid Facilities	None required
Advice to Doctor	Treat symptomatically

PRECAUTIONS FOR USE

Exposure Standards	Not Applicable
Engineering Controls	None required
Personal Protection	Gloves or Barrier cream recommended
Flammability	Not flammable

Storage and Transport No special storage or transport precautions are required. Place lid after use. No special transport precautions are required..

- Spills and Disposal Polydex Bactericidal Jointing Lubricant is a semi-solid gel and unlikely to spill, however it is very slippery under foot. Shovel up and dispose of in an area approved by local authority by laws. Small spillages may be safely mopped up. Non-Hazardous
- **Fire / Explosion Hazard** Not combustible. Firefighters, however, should wear self contained breathing apparatus to minimize the risk of exposure to vapours or products of decomposition if involved in a large fire. No unusual fir or explosion hazards. Extinguish fires with water spray, foam or dry chemical.

OTHER INFORMATION

Reactivity Data Nil
